What we provide

Every description below is condensed from The Capelli Group's own published material. Nothing clinical has been added.

Battering Intervention and Prevention Program (BIPP)

- 18 weeks
- 36 hours
- English
- Español
- Zoom or in person

An 18-week program that satisfies the **36-hour TDCJ-CJAD and State of Texas requirement**. Four phases, offered in both Spanish and English, delivered through interactive Zoom classes or in person. Groups run at 5 to 20 people under State of Texas BIPP Accreditation Guidelines.

BIPP addresses socio-cultural issues regarding gender and violence, critical thinking, empathy, accountability, and communication. Completion requires the minimum 36 hours of educational group sessions, appropriate participation, and payment of fees.

Affirmative Finding of Family Violence (AFV) Counseling is available where the court does not recommend BIPP but does order family violence counseling.

BIPP is not an anger management program. If your court order says BIPP, anger management will not satisfy it. If you are unsure which program your order requires, call and we will help you read it.

A note on couples counseling. The clinic advises against couples counseling until the abusive party has completed an appropriate intervention program and the other partner feels safe to participate.

Anger Management / Assault
